

# The AI-Assisted Collaborative Mind Mapping Workspace

Ayoa is an all-in-one assistive software where neurodivergent individuals can **brainstorm ideas, manage deadlines, organise information and work with others.**

## Artificial Intelligence

The AI-powered partner that intuitively supports thinking by delivering personalised mind map learning.

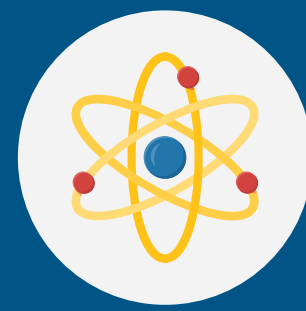

## Neuro-inclusive

Ayoa offers visually engaging, distraction-free features with options for diverse cognitive styles.

## Promote collaboration

Ayoa Ultimate users can share mind maps with others who can use Ayoa Free.

## Eliminate distractions

A clean interface with structured tools for efficient, focused, and non-overwhelming work.

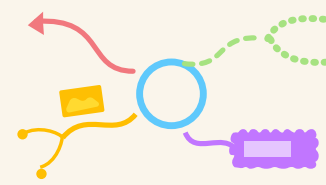

## Ayoa - The Modern Approach to Mind Mapping

Ayoa's modern collaborative approach to mind mapping engages today's students with a fun, minimalist interface similar to the latest consumer apps. Includes integrated whiteboards, task management, and AI support. Importantly, students can access their work anywhere since Ayoa also supports iPhone, iPad and Android devices.

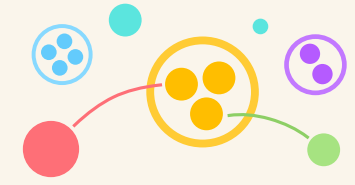

# Our neurodiversity-friendly interface

Unlike other mind mapping tools, Ayoa Ultimate minimises task switching by including whiteboards for note taking, and also has full task management features:

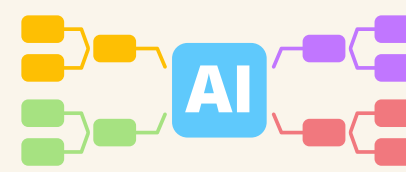

### Organic maps

Unleash creativity and visually enforce recall

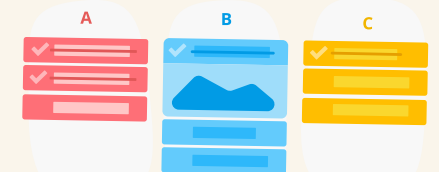

### Task Canvas

A colourful & fun way to manage tasks

### AI Mind Maps

Kickstart creative breakthroughs in a flash (Ultimate exclusive)

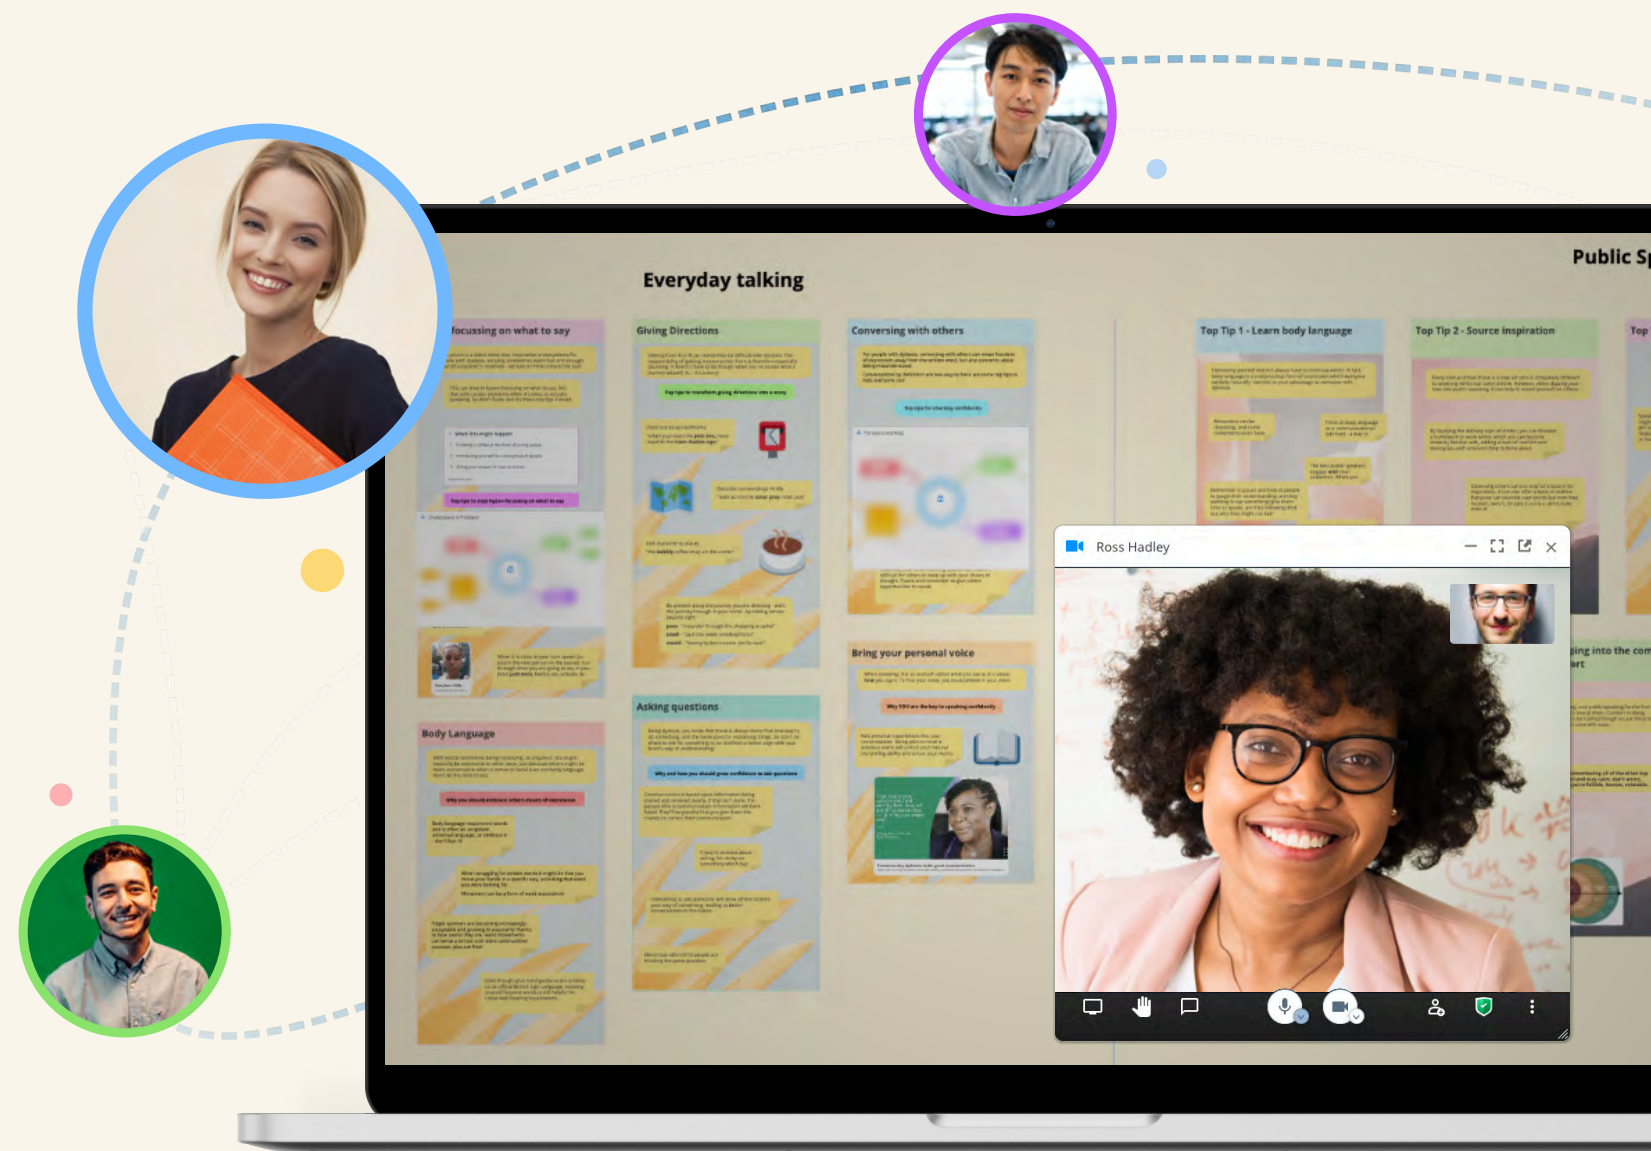

### Kanban

Manage your projects in a clear, linear way

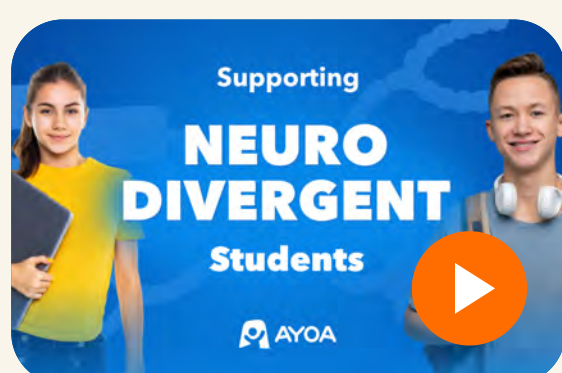

**✓ Your AI-Powered Partner For Personalised Mind Map Learning**

## Widening Participation

With an Ayoa Ultimate license, you enable unlimited sharing ability for students to collaborate with each other, including free users. Ayoa offers features like instant messaging, comments and video calls to enhance communication with educators. This one size fits all approach ensures full collaboration between DSA students and their fellow neurotypical peers. Fully inclusive team collaboration has never been easier!
